Manufactured Home Incentive Program *\$1000 Homebuyer Rebate Form*

Lincoln Electric Cooperative is promoting the construction and purchase of energy efficient manufactured housing by offering incentive payments to home buyers purchasing new electrically heated manufactured homes built to the Northwest Energy Efficient Manufactured Housing Program (NEEM) standards, and sited within our service territory. Lincoln Electric Cooperative will offer qualifying home buyers a \$1000 cash incentive after the home is set-up to these specifications and verified by a Lincoln Electric representative. In order to receive the rebate, after the home is properly set-up, the home buyer should complete the section below, sign the form and return to Lincoln Electric. A co-op employee will schedule a visit to the home to verify the information provided; once inspected, payment will be sent to homeowner. Payment of funds is contingent upon available funding. Lincoln Electric reserves the right to terminate this program at any time, at the Co-op's discretion. For more information contact Tim Engleson at Lincoln Electric.
